Mission

Our mission is to expand medical professional and public awareness and understanding about Parkinson disease that will lead to maximum support, the best individual healthcare, assistance for caregivers and families, and increased funding for research.

Vision

The vision of the Wisconsin Parkinson Association is to create a world without Parkinson disease. Until then, we are here to help by:

♦ making the public more aware of Parkinson’s and where to get help;
♦ educating healthcare professionals about how to recognize and treat Parkinson’s;
♦ supporting people with Parkinson’s, their caregivers, and family members;
♦ providing information to people with Parkinson’s so that they have the resources and knowledge to treat and care for their disease; and
♦ supporting research into the cause, better treatment, and a cure.
The 2014-2015 fiscal year has been a year of collaborations and connections, and that is due to you – our donors, advisors, partners, volunteers and supporters. Thank you for your support as we continue to help those impacted by Parkinson disease!

As you read through this annual report, we would like to point out a few of our exciting endeavors and important relationships from this past year:

- Through partnerships with healthcare providers, we held educational programs in new locations throughout our service area, educating and raising awareness.

- We continue our strong relationships with nearly 100 support and exercise groups in Wisconsin and the surrounding states. Most of these groups are run by volunteer facilitators who have a passion for what they do and give time and energy to serve the Parkinson’s community.

- We have aligned with several research facilities, and through a grant, doctors and researchers are utilizing our brain tissue repository to learn more about Parkinson disease, with the goal of finding a cure.

- The WPA offices moved into the Nonprofit Center of Milwaukee and as a result we are broadening our reach within the nonprofit community and creating easier accessibility to healthcare systems in the area.

We are proud of these accomplishments and with your help, we are energized to increase these efforts even more in the coming year. Thank you for your support!
Mission in Action: Awareness, Education & Research

We are actively meeting our mission of expanding awareness and understanding about Parkinson disease, ensuring maximum support when it’s needed, helping secure the best individual healthcare, providing assistance for caregivers and families, and supporting an increase in research funding to lead to a cure.

Awareness

“Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it’s the only thing that ever has.”
~Margaret Mead

As the resource for Parkinson disease in Wisconsin and the surrounding states, WPA attends health fairs, conferences, and workshops hosted by other nonprofit organizations and other corporations. It is our role to be the voice of people with Parkinson disease, and to raise awareness of the disease through as many channels as possible.

Our support groups also serve as an awareness tool, as we all continue the vital role of spreading information and seeking understanding about the disease.
Education

“Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family.”
~Kofi Annan

This year, through workshops, conferences, literature packets and community outreach, we connected with more people than ever before to educate on the signs, symptoms and potential treatments of Parkinson disease. Our educational programs help empower those with Parkinson disease to take control of their individual diagnoses, while getting involved in the progress of supporting others and striving for a cure.

Educational programs this year included “Understanding Parkinson Disease”, “Parkinson Disease: Newly Diagnosed”, “Parkinson Disease: The Basics & Beyond”, “Parkinson Disease: Living Well”, and the 29th Annual WPA Symposium.

Research

“In order to conduct innovative research that will aid in finding a cure for Parkinson’s, WPA has created and strengthened several partnerships with local and national universities. Researchers at Dartmouth-Hitchcock Medical Center (pictured below) are utilizing the brain tissue bank the WPA established to study inflammatory regulators in brains of patients with Parkinson’s. University of Wisconsin-Milwaukee, Marquette University and Concordia University are all also involved in a variety of research projects and long-term studies that will impact the lives of people with Parkinson disease.”
~Michael J. Fox

Cures aren’t going to fall from the sky. We have to climb up and get them.”
~Michael J. Fox
1. The 11th Annual **Fall Parkinson Ride** was held to benefit WPA. Many community members who have been touched by PD in some way, like the organizers of this annual motorcycle ride, choose to hold fundraisers and donate the proceeds to WPA.

2. **The Network magazine in Fall 2014** focused on animal therapy, drug interactions and approvals, and Medicare open enrollment.

3. **Parkinson disease: Basics and Beyond** was held in five cities around Wisconsin for over 225 individuals with PD and their caregivers, as well as professionals who care for seniors. Through a collaboration with The Neuroscience Group, WPA also hosted a **Living Well Conference** in the Fox Valley for over 185 participants.

4. **The Network magazine in Winter 2015** featured Knut Apitz, a chef, former restaurant owner, and WPA supporter. The issue also introduced new board members, including new board president Kate McDonald, and shared information on the relationship between Parkinson disease and the senses of taste and smell.

5. WPA was designated as the featured charity at "**Back to the Future" night with the Wisconsin Timber Rattlers** minor league baseball team. We had an information table and were highlighted through announcements and on the scoreboard during the game.

6. **Thirty volunteer support group facilitators received training** on running a group, finding speakers and resources, and connecting members with WPA resources. Facilitators also participated in an exercise class to learn more about the benefits of exercise for people with Parkinson’s.
7. The Spring 2015 issue of *The Network* featured WPA supporters, such as members, sponsors, partners, board members, volunteers, and support group facilitators.

8. The **WPA Symposium** reached more than 215 people with Parkinson’s and their loved ones, who learned about sleep disorders, speech and swallowing issues, caregiver resources, emerging treatments and more.

9. The **WPA Open Against Parkinson Disease** golf outing connected over 85 golfers for a day of comradery and fun while raising funds and supporting the mission of the WPA.

10. As a follow up to the Symposium, the **Summer 2015 issue of The Network** provided summaries of each session, proving that the magazine is valuable to members even if they aren’t able to attend WPA events.

11. The board of directors held its **Annual Meeting**, preceded by a **reception for the Tulip Club**, a special group of donors who provide significant philanthropic support to WPA.

12. LSVT Global and WPA partnered to host **LSVT BIG and LOUD “train the trainer” sessions**. Sixty-five physical and occupational therapists were trained in the BIG program and 35 speech therapists were trained in the LOUD program.
The financial information depicted on this page is derived from Wisconsin Parkinson Association’s audited August 31, 2015 financial statements, which contain an unqualified audit opinion by an independent accounting firm.

The complete, audited financial statements can be obtained online at www.wiparkinson.org.

Fiscal Year September 1, 2014-August 31, 2015
Exercise and support groups met over 1,500 times and reached over 750 individuals each month.

Books, CDs and DVDs checked out from the WPA Resource Library, providing research, information and support.

People attended the annual Symposium and learned about sleep disorders, speech and swallowing issues, caregiver resources, emerging treatments and more.

Attendees at support group meetings where WPA staff attended and spoke.

Opportunities to connect with people living with PD, their friends and family, and the community.

Supporters who receive *The Network* magazine each quarter.

Invaluable research collaborations with local and national colleges and universities.

Connections made to other professionals in the senior care industry, through networking and industry groups.

Individuals at health fairs and other conferences where WPA presented, sponsored or had an information booth.

Referrals in person and over the phone with information on home healthcare, doctors/neurologists, insurance, durable medical equipment and more.

45
Books, CDs and DVDs checked out from the WPA Resource Library, providing research, information and support.

525
Attendees at support group meetings where WPA staff attended and spoke.

225
People attended the annual Symposium and learned about sleep disorders, speech and swallowing issues, caregiver resources, emerging treatments and more.

1,075
Participants in WPA educational outreach programs like *PD: Living Well*, and *PD: Basics & Beyond*.

3,700
Individuals at health fairs and other conferences where WPA presented, sponsored or had an information booth.

1,500
Supporters who receive *The Network* magazine each quarter.

410
Connections made to other professionals in the senior care industry, through networking and industry groups.

115
Referrals in person and over the phone with information on home healthcare, doctors/neurologists, insurance, durable medical equipment and more.

Donations - Tulip Club Members

Wisconsin Parkinson Association can only advance its mission with your investments. We recognize and thank the many generous donors who support those living with Parkinson disease and their loved ones through their gifts to WPA. The following lists reflect contributions received during the fiscal year September 1, 2014-August 31, 2015. For information on how you can support the work of WPA, please call 414-312-6990.

The following is a listing of Tulip Club members, a special group of donors that provides significant philanthropic support for WPA’s programs and services. Membership in the Tulip Club is available with a gift of $250 and above.

Ogilvie Family Fund within the Community Foundation for the Fox Valley Region
Dolores Gust proudly shows off the race medals earned by her grandson Erik Tasker. Erik competed in two half Ironman Triathlons and other races while raising money to donate to WPA in his grandmother’s honor.
In May 2015, the WPA offices relocated to the Nonprofit Center of Milwaukee, located at 2819 W. Highland Blvd., Milwaukee. This collaboration with the Nonprofit Center and its 350+ member organizations offers great opportunities for WPA and its supporters as we share resources and ideas. Sharing a building with other nonprofits has also been very beneficial in reaching a new demographic as we work towards our mission of education and awareness.
